

EDUCATION

- Pamantasan ng Lungsod ng Valenzuela

Bachelor of Science in Information Technology

Valenzuela City, Metro Manila

2023 – 2027

EXPERIENCE

- Upturn Business Solutions PH

Software Engineer Intern

Valenzuela City, Metro Manila

Jan 2026 – Apr 2026

 - Tax Records Portal:** Sole developer of a production enterprise platform (React 19, Spring Boot 4, PostgreSQL) with 20+ tables across 7 Flyway migrations, replacing manual tax compliance workflows company-wide
 - Access Control:** Engineered a 32-permission RBAC matrix across 6 roles with JWT access/refresh tokens, server-computed action permissions per entity state, and Bucket4j rate limiting with Caffeine-backed IP tracking
 - Domain Architecture:** Built a 6-status task pipeline with bulk import (500 rows/batch, partial success, duplicate detection), a multi-stage client onboarding workflow with JSONB diff computation on approval, and an invoice system with real-time outstanding balance via native SQL
 - Business Logic:** Implemented consultation billing with automatic included/excess hour classification using monthly running totals, scheduled client deactivation and orphaned file cleanup jobs scanning 13 reference sources including recursive JSONB paths
 - Infrastructure:** Deployed on Railway and Cloudflare Pages/R2 with Sentry error tracking, async transactional emails via Resend, optimistic locking on concurrent entities, and MapStruct/JPA Specifications for type-safe mapping and dynamic filtering

PROJECTS

- Survey Management with Data Analysis

Enterprise survey platform built with React, TypeScript, ASP.NET Core, and SQL Server

 - Survey Builder:** Modular design system with 10+ question types, validation rules, and conditional logic
 - Analytics Engine:** Multi-dimensional analytics with visualizations for trends, engagement, and performance metrics
 - Authentication & Authorization:** JWT-based RBAC system across admin portal and public interface with protected routing
 - Data Management:** Optimized backend for handling millions of responses with QR code access and PDF/Excel exports
 - PLV Cloud

File-sharing platform built with Laravel, Livewire, PostgreSQL, and Docker for Pamantasan ng Lungsod ng Valenzuela

 - File Management:** Hierarchical folder structure with unlimited nesting and Cloudinary CDN integration
 - Collaboration:** Public and private sharing with granular permissions, real-time search, and advanced filtering
 - Activity Tracking:** Comprehensive logging, in-app notifications, and content reporting system
 - Deployment:** Docker-based production deployment with Nginx, queue processing, and CI/CD pipeline

TECHNICAL SKILLS

- Languages:** JavaScript, TypeScript, Python, Java, C#, PHP
- Frameworks:** React, Spring Boot, Node.js, Express.js, .NET, FastAPI, Laravel, Livewire, Tailwind CSS
- Databases:** PostgreSQL, MySQL, MongoDB, SQL Server
- Cloud & DevOps:** Railway, Cloudflare Pages, Cloudflare R2, Vercel, Render, Docker
- Tools:** Git, GitHub, VS Code, IntelliJ IDEA, Postman, Swagger, Vite, Ubuntu

AWARDS

- ITLympics 2025 – Gold Medal | Python Programming, Pamantasan ng Lungsod ng Valenzuela

Apr 2025
 - 14th IT Skills Olympics – Bronze Medal | Python Programming, University of Makati

Nov 2025
 - ITLympics 2024 – Gold Medal | Java Programming, Pamantasan ng Lungsod ng Valenzuela

Apr 2024
 - 13th IT Skills Olympics – University Representative | Java Programming, University of Makati

Nov 2024
